

oluce Milano dal 1945

LA LUCE SU MISURA

MILANO 1945 Grazie alla loro potenza espressiva, le forme iconiche dei prodotti realizzati da Oluce articolano una grammatica visiva che diventa narrazione: storie, suggestioni, emozioni vengono rivelate attraverso il profilo delle lampade.

La forza evocativa dell'illuminazione è importante quanto le sue potenzialità funzionali, capaci di tradurre in oggetti idee e intuizioni.

Il pragmatismo della linea si arricchisce così dell'esperienza delle mani e la qualità dei materiali diventa un requisito connotativo, in grado di rendere le lampade Oluce oggetti di grande personalità che si inseriscono con disinvoltura in ambientazioni di raffinata eleganza. Elementi d'arredo dalla presenza autorevole e leggiadra insieme, capaci di creare un dialogo attraverso le generazioni e diventare parte integrante del tessuto stesso delle case che abitano.

CUSTOM MADE LIGHTING

— Thanks to their power of expression, the iconic shapes of Oluce products have been articulating a visual grammar that becomes narrative since 1945: stories, suggestions, emotions, all revealed through the profile of the lamps.

The evocative strength of lighting is as important as its functional potential, able to translate ideas and intuition into objects. The pragmatism of the range is thereby enriched by the experience of the hands and the quality of the materials becomes a connotative prerequisite, able to turn Oluce lamps into objects of great personality that have a proper place in living environments of refined elegance.

Furnishing elements with an authoritative and graceful presence, able to create a dialogue across the generations and become integral part of the homes in which they are involved.

Nel design ciò che conta
è il concetto espresso con uno schizzo

What is worth in design
is the concept expressed with a sketch

Vico Magistretti

BESPOKE TAILORING L'esperienza maturata dall'azienda rivela un'eccellenza produttiva unica che traduce in forme un'appassionata ricerca tecnologica sulle potenzialità della luce, di cui ogni lampada costituisce una tappa. L'indagine costante sulle più aggiornate soluzioni illuminotecniche e il continuo perfezionamento dei paradigmi che determinano gli esiti migliori in termini di risparmio energetico arricchiscono il cuore luminoso dei prodotti Oluce con una innovativa sintesi tra forma e sostanza. Dalla volontà di valorizzare il bagaglio di conoscenze umane e creative dell'azienda associandole alle esigenze attuali del mercato nasce Bespoke tailoring, il servizio di personalizzazione che Oluce ha pensato appositamente per il contract. Lampade ideate ad hoc su progetti specifici oppure in varianti modulari su disegni già esistenti nonché produzioni di prodotti a catalogo articolano la ricca proposta tailor made che l'azienda offre per poter soddisfare, nel modo più adeguato, le esigenze di grandi e piccole forniture. Un percorso di scoperta, anche sensoriale, che racconta l'estrema cura del dettaglio e l'ampia gamma di personalizzazioni disponibili sui prodotti Oluce, introducendo il viaggio creativo e produttivo che l'azienda intraprende con il cliente.

— The company's experience reveals a unique manufacturing excellence that translates enthusiastic technological research of lighting potential into shape, for which each lamp representing a stage. The constant study on the most up to date lighting solutions and the continual improvement of the paradigms that fix the best results in terms of energy savings enrich the bright heart of Oluce products with an innovative synthesis between shape and substance. From the desire to valorise the company's background of human and creative knowledge, according to the current market needs, Oluce come up with the new customized service of Bespoke tailoring, for the contract sector. Lamps designed ad hoc on specific projects or in modular varieties on already existing designs as well as productions of catalogue products are all part of rich tailor made proposal that the Oluce company offers in order to satisfy – in the most appropriate way possible – the needs of customers for large or small supplies. A journey of discovery – also of the senses – that narrates the great attention to details and the wide range of ways you can custom Oluce product, introducing the creative and productive journey that the company shares with its customers.

PEOPLE L'azienda ha saputo costruire nel tempo una collezione strutturata come un racconto, abitato da prodotti capaci di superare le mode per divenire icone del design italiano. Già presente alla IX triennale di Milano, nel corso della sua lunga storia Oluce ha ricevuto numerosi riconoscimenti, tra cui due Compassi d'Oro, due Design Award e la Medaglia d'Oro alla XIII Triennale di Milano. Le sue lampade compaiono nelle più importanti collezioni permanenti di design del mondo. Negli ultimi anni, alle geometrie assolute di Vico Magistretti, alla modernità ormai classica di Joe Colombo, alla discrezione di Tito Agnoli e Marco Zanuso vengono ad aggiungersi i progetti di una nuova generazione di designer italiani e internazionali che hanno interpretato le novità tecnologiche, declinandole nell'inconfondibile tratto estetico dell'azienda. Dal minimalismo poetico di Laudani&Romanelli, Sam Hecht e AngelettiRuzza alla grammatica essenziale di Gordon Guillaumier, Carlo Colombo e Lutz Pankow; dalle ricerche espressive di Francesco Rota, Ferdi Giardini e Paolo Imperatori all'elegante sintesi formale di Astori/De Ponti, Jörg Boner e di Nendo. Con i progetti più recenti, firmati da Giopato&Coombes, Victor Vasilev, Nicola Gallizia e Mist-o l'azienda conferma la sua vocazione come interprete di un sofisticato gusto internazionale, capace di calibrare sapientemente tradizione e innovazione.

— The company was able to build up, over time, a structured collection like a tale, inhabited by products that overcame the passing fashions and became an icon of Italian design. Oluce was already present as early as the IX Triennial of Milan, during its long history, Oluce has received numerous awards, among which two Compasso d'Oro, two Design Awards and the Gold Medal of the XIII Triennial of Milan. Its lamps appear in the most important permanent design collections in the world. In recent years, the absolute geometric patterns of Vico Magistretti, the now-classic modernity of Joe Colombo, and the discretion of Tito Agnoli and Marco Zanuso are joined by projects of a new generation of Italian and international designers who have interpreted the technological innovations, with the unmistakable aesthetic traits of the company. From the poetic minimalism of Laudani&Romanelli, Sam Hecht and AngelettiRuzza to the essential grammar of Gordon Guillaumier, Carlo Colombo and Lutz Pankow; from the expressive research of Francesco Rota, Ferdi Giardini and Paolo Imperatori to the elegant formal synthesis of Astori/De Ponti, Jörg Boner and Nendo. With the most recent projects by Giopato&Coombes, Victor Vasilev, Nicola Gallizia and Mist-o the company confirms its role as interpreter of a sophisticated international taste, able to expertly calibrate tradition and innovation.
